Job Description

The College of Aviation is currently accepting applications for the position of tenure track/non-tenure track Assistant Professor of Commercial Space Operations. This position will teach introductory and higher level policy and law courses in the undergraduate Spaceflight Operations degree program at our Daytona Beach Campus.

The Spaceflight Operations degree program is a unique B.S. degree focused on the policy, licensing, planning, flight, safety, policy, management, human factors, and training aspects of today's commercial space programs and space agency operations. The Spaceflight Operations degree is a multidisciplinary program introduced at the ERAU Daytona Beach campus in the fall semester of 2013.

Supporting curriculum for the program comes from the four colleges at the Daytona Beach campus which include the College of Arts and Sciences, the College of Aviation, the College of Business, and the College of Engineering.

The position includes a mix of teaching, research, and service obligations. Basic teaching requirements are 12 undergraduate credit hours (four courses) per semester, with the possibility of replacing some of the teaching credit hours with equivalent funded research.
