Electronic Engineering according to the QS University Rankings by Subject 2023, we offer an unparalleled platform for professionals passionate about educating future engineering leaders.

We seek dedicated educators and researchers to join our team, focusing on a non-tenure-track Senior Lecturer/Lecturer positions in Power Engineering.

Position Description

Applicants should hold a PhD or at least a Master's degree in Electrical and Electronic Engineering, or a closely related discipline. A strong background and experience in one or more of the following areas is required: Power Systems, Power Electronics, Electric Motors, Power Apparatus and System Protection, Smart Grids, Renewable Energy Systems.

Fresh PhD graduates would be considered but preferences are given to candidates with relevant working/teaching experience in universities.

Responsibilities

The successful candidates are expected to teach courses in the fields of Power Engineering at the undergraduate and postgraduate levels, and supervise undergraduate and postgraduate students. The responsibilities include:

- Facilitates and conducts all teaching assignments.
- Engaging in curriculum development in the context of the rapidly changing technology (including but not limited to creating new course materials and resources to enhance student learning).
- Performing administrative duties related to courses, such as coordination, evaluation, and maintaining academic records.
- Assessing student performance, providing feedback, and offering academic counseling.
- Provide academic supervision of undergraduate and graduate students and projects.
- Carries out assigned service duties to the School, University and the public at large.
- Undertaking any other responsibilities as assigned.

Application

Interested applicants are invited to submit their applications through the NTU career portal by clicking the “Apply” button. To facilitate the process, please submit the following documents if applicable.

- A cover letter.
- Curriculum vitae, highlighting teaching and supervision experience.
- Teaching statement.
- Research statement.
- A 20-minutes demo-teaching video (if available).
- Research track in power systems are favored (if available).
- Names and contact details of at least three (3) referees.

Review of applications and shortlisting of applicants will be carried out on an on-going basis until the positions are filled. Only shortlisted candidates will be notified.
