Posted Aug. 29, 2024, set to expire May 6, 2025

An adjunct Assistant Professor position is currently available in the Asian School of the Environment, NTU. This role involves overseeing the research staff and PhD students involved in an existing research project on climate-driven shifts in fisheries within Southeast Asia.

Responsibilities:

- Help oversee and direct an existing research project on climate-driven shifts in fisheries in Southeast Asia.
- Help mentor and supervise PhD student associated with the research project.
- Oversee and manage publications associated with the research project.
- Continue collaborations with other marine-focused research labs at ASE.

Requirements:

- PhD qualifications in marine science, climate change and fish ecology.
- Necessary experience in otolith growth chronologies.
- Necessary experience in managing research projects.
- Necessary experience in mentoring graduate students.

Emoluments and General Terms & Conditions of Service

The commencing salary will depend on the candidate's qualifications, experience and the level of appointment offered.

Application Procedure

To apply, please submit the following materials: -

- Cover letter
- Curriculum vitae
- Citation Report

Please submit your application through the [NTU Career Portal](#) or by clicking the 'APPLY' button. All applications and materials submitted will be held in strict confidence. Only shortlisted candidates will be notified.
