A Doctorate (NQF Level 10) in Computer Science or a related field with at least six (6) years of lecturing experience at tertiary education level and/or industry experience or an equivalent combination of relevant professional experience. Excellent English communication skills (oral and written). Proven competence in successful sourcing of research or project funding from third party sources, successful initiation and management of research projects, curriculum development, and strong management/organisational and mentorship skills. Competence to teach at least three of the following courses: Information Systems Security Essentials, Advanced Network Security, Applied Cryptography, Intrusion Analysis and Response, Information Security Management and Assurance, CCNA/CCNP certification and instructor, Cybersecurity operations and certifications, and Critical Information Infrastructure Protection. Competence to establish professional networks and to maintain links with the industry, as well as experience in developing post-graduate programmes, and strong management skills. A credible record of lecturing, peer-reviewed publications, community engagement, programme coordination, as well as supervision of students (research) at both under- and post-graduate levels.
